

CATALOG UPDATES

Catalog Updates

The CSU General Catalog is re-published once a year every August. It will reflect updates approved during the previous academic year. It will not reflect updates that may take place during the period between publications.

For new courses approved for Spring 2026 after August 1, 2025, please see the Spring 2026 Class Schedule. Experimental courses for the 2025-26 academic year can also be found in the Class Schedule. The Class Schedule may be accessed through RAMweb (<https://ramweb.colostate.edu/registrar/Public/Login.aspx>) or ARIESweb (<https://ariesweb.colostate.edu/webauthesMain.aspx>).
