

CERTIFICATE IN OPERATIONS, LOGISTICS AND SUPPLY MANAGEMENT

The College of Business offers a Certificate in Operations, Logistics, and Supply Management for business students. This program develops expertise in the core areas of supply chain management (SCM) and prepares students for careers in the field. Employers increasingly seek professionals who can mitigate risks in global supply chains, understand cost trade-offs across SCM activities, and build strong relationships with key trading partners. This certificate equips students with the skills to add value through effective coordination across functions and organizations.

Learning Objectives

This certificate provides real-world, hands-on learning experiences that prepare students to make informed decisions related to purchasing, production, transportation, and the delivery of goods and services in a global context.
