

MASTER OF SCIENCE IN STUDENT AFFAIRS IN HIGHER EDUCATION, PLAN A AND PLAN B

The **M.S. in Student Affairs in Higher Education (SAHE)** program is designed for students seeking careers in student affairs and higher education administration in a college setting. The curriculum is taught by faculty who are both scholars and practitioners. Topics of study include:

- Theories, assessments, and evaluations related to student affairs practice
- Cross-cultural and diversity issues within the context of higher education
- How diverse student learning, developmental theory, and research are relevant to students' education and development
- Current issues and practices in the student affairs profession

A central component of the SAHE program is engaging in intentionally reflective practice as a foundational skill necessary for effective practice in student affairs. This is both a process and an outcome such that reflection-on-action happens in the program to develop practitioner-scholars who can effectively reflect-in-action. The degree is offered through CSU Online (<https://www.online.colostate.edu/degrees/student-affairs/>). Students may take additional credits beyond the required amount to strengthen their learning experiences.

For more information on this program, please contact:

Alex C. Lange, Ph.D. (a.c.lange@colostate.edu) (they/them)
Assistant Professor & Program Coordinator
