

# DEPARTMENT OF JOURNALISM AND MEDIA COMMUNICATION

---

The Journalism and Media Communication department prepares students for careers in public relations, advertising, social media, journalism, science and environmental communication, audio and video production, photography, sports media, and web design.

With our professional emphasis on best practices, Journalism and Media Communication offers a strong learning community where communication theories and experience merge with digital technology and practical skills. Students learn to communicate thoughtfully and professionally with accuracy and impact.

Office in Clark Building, Room C244  
(970) 491-6310
