

MINOR IN RANGE ECOLOGY

Forest and Rangeland Stewardship Department

Forestry Building, Office 123
970.491.6911

The minor in Range Ecology provides an academic background for students interested in wildlife habitat, integrated land management, ranch management, applied ecology, and international development of arid lands. The minor provides additional flexibility for students who have a liberal arts or international education goal, but would like to increase their employment potential in an applied area.

To get more information about this minor or to officially declare it, please visit the Warner College of Natural Resources Undergraduate Student Advising website (<https://warnercnr.colostate.edu/advising/>) to make an appointment with an advisor.

Learning Objectives

Students will:

1. Develop an in-depth understanding of basic plant and animal biology and physical sciences as they relate to the field of rangeland science.
2. Understand the important concepts of ecology and rangeland management.
