Change of Major Process

- **For future or incoming CSU students:** Please contact Admissions (<https://admissions.colostate.edu/>) to declare Psychology.
- **For current on-campus CSU students:** To learn more about Psychology and decide if you are interested in declaring, you must first review our major (<https://psychology.colostate.edu/undergraduate-students/>) and then sign up for and attend a Psychology Major Information Session (<https://psychology.colostate.edu/ugadvising/>):
 - These are 60-minute group sessions led by advisors with individualized course recommendations and built-in time to answer your questions.
 - If you are exploring Psychology or if you are registering before your session, we recommend you review the concentration links above and register for any open courses that you are eligible to add. Many Psychology courses will open to non-Psychology majors after a certain date. Summer courses are open to all majors.
 - Helpful classes to complete early (depending on concentration choice)
 - PSY 100
 - MATH 117, MATH 118, and MATH 124 or higher-level math
 - LIFE 102
 - Any 3 credit SPCM course (<https://catalog.colostate.edu/general-catalog/courses-az/spcm/>)
