

BIOTECHNOLOGY-BTEC (BTEC)

Courses

BTEC 306 Bioprocess Engineering Credits: 4 (3-2-0)

Also Offered As: BIOM 306.

Course Description: Material, energy balances; fluid flow, heat exchange, mass transfer; application to operations in food, fermentation, other bioprocess industries.

Prerequisite: (CHEM 107 or CHEM 111) and (PH 121 or PH 141).

Registration Information: Must register for lecture and laboratory. Credit not allowed for both BIOM 306 and BTEC 306.

Term Offered: Spring.

Grade Mode: Traditional.

Special Course Fee: No.

BTEC 499 Biotechnology Thesis Credits: Var[1-3] (0-0-0)

Course Description:

Prerequisite: None.

Registration Information: Twelve credits from biotechnology core.

Approval of program coordinator.

Terms Offered: Fall, Spring, Summer.

Grade Mode: Instructor Option.

Special Course Fee: No.
