

# PH.D. IN ECOLOGY, HUMAN-ENVIRONMENT INTERACTIONS SPECIALIZATION

## Graduate Degree Program in Ecology

Ruth Hufbauer, Director

Johnson Hall 102

Phone: 970-491-4373

ecology.colostate.edu (<https://ecology.colostate.edu/>)

The Graduate Degree Program in Ecology (GDPE) offers outstanding opportunities for graduate studies ecology, including social-environmental systems. Students can specialize in Human-Environment Interactions as part of their PhD in Ecology degree plan. The HEI program aims to develop students as scientists and policy makers with interdisciplinary problem-solving skills focused particularly on social-environmental approaches to addressing global challenges in the ecological sciences from local to global scales. Students specializing in Human-Environment Interactions engage in independent and collaborative research guided by advisors in the program.

Students interested in graduate work should refer to the Graduate and Professional Bulletin (<https://catalog.colostate.edu/general-catalog/graduate-bulletin/>) or visit the Graduate Degree Program in Ecology (<https://ecology.colostate.edu/>) website for more information.

## Learning Objectives

Students who earn a Ph.D. must demonstrate significant intellectual achievement, scholarly ability, and breadth of knowledge. Successful students in this Ph.D. program demonstrate the following:

1. Mastery of concepts and principles of ecology and working knowledge of relevant basic biology and quantitative and qualitative methods, achieved through required and elective coursework;
2. Ability to critically review and interpret scientific information and originality in integrating that information to design research pertinent to human-ecological issues. This ability is assessed through the research proposal and written and oral components of the Ph.D. preliminary examination;
3. Understanding and practice of research ethics, collaborative approaches, and broader issues related to social responsibility through coursework and research projects;
4. Proficiency in (1) written communication shown in the research proposal, dissertation and, ideally, peer-reviewed research articles, and (2) oral communication shown in presentations at professional conferences or in the classroom, and the dissertation seminar;
5. Understanding of social-ecological systems and how humans interact and influence their environments, and how those environments affect humans, achieved through required and elective coursework;
6. Appreciation of the need to include diverse stakeholder or rightsholder voices in development of solutions that sustain livelihoods and the environment achieved through required and elective coursework.

## Requirements Effective Fall 2024

| Code   | Title   | Credits  |
|--|---|----------|
| <b>COMMON CORE COURSES</b>   |   |          |
| ANTH 530   | Human-Environment Interactions                    | 3        |
| ECOL 505   | Foundations of Ecology                            | 3        |
| ECOL 571   | Advanced Topics in Ecology <sup>1</sup>           | 2        |
| ECOL 592   | Interdisciplinary Seminar in Ecology <sup>1</sup> | 2        |
| <b>ECOLOGICAL SUBDISCIPLINES</b>   |   | <b>6</b> |
| Take a minimum of 6 credits not taken elsewhere in the program from courses in a subdiscipline of ecology. Students are encouraged to explore options across departments. Example courses include the following:                           |   |          |
| ANTH 575   | Paleoecology                                      |          |
| BZ 525   | Advanced Conservation & Evolutionary Genomics     |          |
| BZ 526/BSPM 526  | Evolutionary Ecology                              |          |
| BZ 548   | Theory of Population and Evolutionary Ecology     |          |
| BZ 535   | Behavioral and Cognitive Ecology                  |          |
| ECOL 600   | Community Ecology                                 |          |
| ECOL 610   | Ecosystem Ecology                                 |          |
| ECOL 620   | Applications in Landscape Ecology                 |          |
| ESS 660  | Biogeochemical Cycling in Ecosystems              |          |
| F 610  | Advanced Forest Ecology                           |          |
| FW 562   | Fish and Wildlife Population Dynamics             |          |
| <b>HUMAN-ENVIRONMENT INTERACTIONS</b>  |   | <b>3</b> |
| Take a minimum of 3 credits to expand expertise in human-environment interactions. Example courses include the following:  |   |          |
| ANTH 515   | Culture and Environment                           |          |
| ANTH 529   | Anthropology and Sustainable Development          |          |
| ANTH 535   | Globalization and Culture Change                  |          |
| ANTH 540   | Medical Anthropology                              |          |
| ANTH 545   | Global Mental Health—Theory and Method            |          |
| ANTH 555   | Paleoindian Archaeology                           |          |
| ANTH 571   | Anthropology and Global Health                    |          |
| ANTH 572   | Human Origins                                     |          |
| NR 625   | Community-Based Natural Resource Management       |          |
| POLS 739   | International Environmental Politics              |          |
| SOC 668  | Environmental Sociology                           |          |
| <b>ECOLOGICAL TOOLS</b>  |   | <b>3</b> |
| Take a minimum of 3 credits of any ecologically-relevant quantitative or qualitative course, as determined by student and committee. Students are encouraged to explore options across departments. Example courses include the following: |   |          |
| ESS 575  | Models for Ecological Data                        |          |
| FW 663   | Sampling & Analysis Vertebrate Populations        |          |
| FW 673/STAT 673  | Hierarchical Modeling in Ecology                  |          |
| NR 512   | Spatial Statistical Modeling-Natural Resources    |          |

|   |   |           |
|---|---|-----------|
| NR 523/STAT 523   | Quantitative Spatial Analysis               |           |
| STAR 511  | Design and Data Analysis for Researchers I  |           |
| STAR 512  | Design and Data Analysis for Researchers II |           |
| EDRM 704  | Qualitative Research                        |           |
| EDRM 706  | Analysis of Variance—Education Research     |           |
| POLS 621  | Qualitative Methods in Political Science    |           |
| SOC 610   | Seminar in Methods of Qualitative Analysis  |           |
| <b>PROFESSIONAL SKILLS</b>  |   | <b>1</b>  |
| Take a minimum of 1 credit of a course (or workshop such as through TILT or the Graduate School combined with a credit of Independent Study (ECOL 695) that will enhance the student's professional development and/or skills based on professional goals, as determined by student and committee. Students are encouraged to explore options across departments and programs. Example courses include the following: |   |           |
| BZ 560  | Teaching and Communicating Science          |           |
| ECOL 693  | Research Seminar                            |           |
| ECOL 695  | Independent Study                           |           |
| GRAD 544  | Ethical Conduct of Research                 |           |
| <b>DISSERTATION</b>   |   | <b>1</b>  |
| Take a minimum of one credit:   |   |           |
| ECOL 799  | Dissertation                                |           |
| <b>ELECTIVES</b>  |   | <b>48</b> |
| Additional relevant coursework and credits as determined by student and committee to meet the minimum Graduate School Credit Requirements of 72 credits total. Students are encouraged to explore options across departments and programs.  |   |           |
| <b>Program Total Credits:</b>   |   | <b>72</b> |

A minimum of 72 credits are required to complete this program.

<sup>1</sup> Take one 2-credit offering or two 1-credit offerings; minimum 2 credits total to graduate.

## Requirements for All Graduate Degrees

For more information, please visit Requirements for All Graduate Degrees (<https://catalog.colostate.edu/general-catalog/graduate-bulletin/graduate-study/procedures-requirements-all-degrees/>) in the Graduate and Professional Bulletin (<https://catalog.colostate.edu/general-catalog/graduate-bulletin/>).

## Summary of Procedures for the Master's and Doctoral Degrees

NOTE: Each semester the Graduate School publishes a schedule of deadlines. Deadlines are available on the Graduate School website (<https://graduateschool.colostate.edu/deadline-dates/>). Students should consult this schedule whenever they approach important steps in their careers.

Forms (<https://graduateschool.colostate.edu/forms/>) are available online.

| Step   | Due Date   |
|--|--|
| 1. Application for admission (online)  | Six months before first registration   |
| 2. Diagnostic examination when required  | Before first registration  |
| 3. Appointment of advisor  | Before first registration  |
| 4. Selection of graduate committee   | Before the time of fourth regular semester registration  |
| 5. Filing of program of study (GS Form 6)  | Before the time of fourth regular semester registration  |
| 6. Preliminary examination (Ph.D. and PD)  | Two terms prior to final examination   |
| 7. Report of preliminary examination (GS Form 16) - (Ph.D. and PD)   | Within two working days after results are known  |
| 8. Changes in committee (GS Form 9A)   | When change is made  |
| 9. Application for Graduation (GS Form 25)   | Refer to published deadlines from the Graduate School Website  |
| 9a. Reapplication for Graduation (online)  | Failure to graduate requires Reapplication for Graduation (online) for the next time term for which you are applying |
| 10. Submit thesis or dissertation to committee   | At least two weeks prior to the examination or at the discretion of the graduate committee                           |
| 11. Final examination  | Refer to published deadlines from the Graduate School Website  |
| 12. Report of final examination (GS Form 24)   | Within two working days after results are known; refer to published deadlines from the Graduate School website       |
| 13. Submit a signed Thesis/Dissertation Submission Form (GS Form 30) to the Graduate School and Submit the Survey of Earned Doctorates (Ph.D. only) prior to submitting the electronic thesis/dissertation | Refer to published deadlines from the Graduate School website.   |
| 14. Submit the thesis/dissertation electronically  | Refer to published deadlines from the Graduate School website  |
| 15. Graduation   | Ceremony information is available from the Graduate School website   |
